## "The Ottawa Spotlight"

A Weekly Review of National Affairs  
(By Spectator)

Ottawa, May 26.—The announcement by the minister of Trade and Commerce, Mr. Euler, that the Canadian wheat board would continue to operate during the 1938-39 season and that a minimum price would be decided upon later on will doubtless prove a stabilizing factor in the wheat industry. It will be recalled that the report of the Tarzwell Commission which was tabled in the commons about a fortnight ago, recommended that while it was not in favor of compulsory boards for marketing wheat, the present board should continue in existence for the present, that it is not in normal conditions in world markets are restored.

At the present time, with the political situation in Europe fortifying a little less disquieting interest on parliament bill centres on such questions as the forthcoming Saskatchewan election, the railway inquiry national defense plan and the disjunctive evidence of disloyalty in our federal system so earnestly deprecated by resolution of the Liberal Women's Association.

Some people are saying that if the Saskatchewan elections result in the return of the provincial Liberal government with a general election, and if the present prospects of a good crop in the prairie provinces materialize, the federal administration may decide to appeal to the country this autumn. This is of course merely conjecture. Even though there would be the achievement of negotiating the trade agreement with the United States, now nearing completion, which could be passed before the people, the odds will not be that the election will be this year.

Representatives of both railway systems have been explaining to the senate committee why joint economy measures between the railways have resulted in such a limited saving. As explained by one railway official it has been the question of arriving at a fair balance of "burden and advantage" that has held up many projected savings for the pooling of trains and abandonment of tracks. It was easy enough to agree to pool passenger services between Montreal and Quebec, and Montreal and Toronto, but when it came to Western Ontario, the contention of the Canadian Pacific officials was that this would be of great advantage to C. P. It is to be pointed out that if that were abundant it would be difficult to handle them along the Fraser river. It was pointed out that if that were abundant it would be difficult to handle them along the Fraser river. It was pointed out that if that were abundant it would be difficult to handle them along the Fraser river.

The bulk of the appropriation of about \$4 million dollars for the defence of Canada has been passed with much less opposition than in the last session. The disappearance of any real criticism of the principle underlying the government's defence policy is significant. It demonstrates that in a world feverishly re-arming and in such a state of nerves, the weight of public opinion in Canada approves of the government taking measures for the adequate defence of this country. An instructing point brought out in the debate was that at this time next year Canada will have 200 aircraft in her air fleet, composed of service and training planes. There will be six destroyers in our navy and six patrol craft. We have four destroyers now and two others will be received from the United Kingdom. Our defence on the Western seaboard and elsewhere are being carried out on a carefully prepared and coordinated plan. The department has made a survey and is compiling a record of 78 Canadian plants which in case of a national emergency could be utilized for the production of munitions and defence equipment. Air equipment factories in Canada, the minister stated in the commons, could produce any kind of aircraft required, if orders were placed with them. The type of equipment which cannot be manufactured at present in Canada is in connection with heavy calibre guns.

The British air mission which has been visiting this continent were for some days in Ottawa, conferring with defence department officials and representatives of aircraft manufacturing companies. They came for the purpose of immediately placing orders for making a "long term survey" of Canadian facilities for the manufacturing of aircraft for the British government. It will meet with the British Air Ministry, where the mission hands in its report, to determine the extent of the orders to be placed in Canada. This is all that is certain at present, but with the vast expansion of the British air forces, it may be taken for granted that the British island, over a period of time, to buy a number of aircraft in Canada. This is the belief held here. Continuity of supply was the point emphasized by the members of the British mission on Canadian manufacturers when discussing the question here.

ASKS \$40,000,000 FOR PUBLIC WORKS

Hon. Norman McLeod Rogers, Federal Minister of Labor, has asked the federal treasury for forty million dollars to spend recovery by a large scale public works program. Among the projects planned in the proposed recovery program are development of highways, of national parks, of civil aviation, of rehabilitation and youth training.

ENGAGEMENT ANNOUNCED

Mr. Sidney J. Bower announces the engagement of his second daughter, Phyllis Reardon to Elmer Leroy Gray, son of Mr. and Mrs. E. Gray of Strathmore, the wedding to take place the last of June.

## ANNIVERSARY CELEBRATED

MR. AND MRS. C. J. AKKERMAN CELEBRATE 40th ANNIVERSARY

A very interesting family gathering took place on Sunday, May 29th at the home of Mr. and Mrs. C. J. Akkerman, when their children and grandchildren gathered to celebrate with them the 40th anniversary of their wedding. Mr. and Mrs. Akkerman were married in the Hague, Holland in 1897. The family included Mr. Harry Akkerman and three sons, Andy, and Bobby. John Akkerman, Mr. and Mrs. Chris Akkerman and their children, Coray, George, Harry and Julia; Mr. and Mrs. J. F. Vinding of Carleton Place; Mr. and Mrs. Tony Akkerman of Udding and Nick Akkerman at home. One sister still lives in Holland.

The gathering proved an exceptionally happy reunion and it is planned to make it an annual gathering. The standard plus with all other friends in wishing the honor, gives many more years of health and happiness.

## COMING EVENTS

A. Y. P. A. Lawn Social Saturday, June 4th on Mr. and Mrs. McKinnon's lawn, starting at 2:30. A pair of Love Birds will be given to the lucky ticket holder. Various games will be held to the general interest. Everybody welcome.

Reserve Wednesday June 22, for a Lecture on Peace, and illustrations showing the War torn area in China. The lecture will be given by Mr. Arnold Robertson in United Church at 9 p.m. June 22nd. Further particulars later.

Be on hand for the Auction Sale of household goods, pure bred Holstein calf, farm produce, etc. at Memorial Hall, Saturday, June 4th at 7 to 8:30 p.m. This will be followed by a dance with Bremner's six piece orchestra, from 8 to midnight. Light refreshments served by St. Michael's Guild. Come and join in the fun.

A dance in Cheshire Hall Friday, June 10th will be held under the auspices of the Cheshire Ladies Club. Len Davis' orchestra will provide irresistible music. Supper will be served. A good floor, good music and a good time assured.

## CARSELAND

The Carceland Girls softball team defeated Blind Creek girls in their first game of the season played last Thursday.

Mr. P. Erickson is still confined to hospital with blood poisoning. His many friends wish him a speedy recovery.

The Ladies Aid which was postponed from the regular date, on account of rain, was held last Thursday at the home of Mrs. Sison.

The C. G. I. T. held a very successful social evening last Thursday. The holder of the lucky ticket on the friendship quilt being La Verne Cole.

Mrs. Davis spent the week end with friends in Vulcan.

Mr. Watson and his daughter, Mrs. W. Johnson of Auburn, Ontario arrived by motor, on Friday to visit with his son-in-law and daughter Mr. and Mrs. E. Hoover.

In the baseball tournament at Gleichen on the 24th the Carceland team came out with top money, and in the double header played here with Standard on Sunday, Carceland won both games, each with a score of 8 to 7. The return game will be played at Standard on Sunday, June 5th.

The tennis court, is now in use and making a pleasant pastime for many.

Mr. Ken Fyfe had the misfortune to get a piece of steel in his eye, but is now making a good recovery.

Mr. and Mrs. Arnold and Mr. Anderson of Nanton were week end visitors in town.

Mrs. J. Nelson is now able to be about again after her recent serious attack of rheumatism.

Rev. McKelvie attended the Church Conference in Edmonton last week.

## ARDENODE

Mr. and Mrs. Otto, also Mr. and Mrs. Hallett of Nightingale visited at the home of Mr. and Mrs. J. Lindley Sunday.

Mr. and Mrs. T. Knight and family of Calgary visited with Mrs. H. Sharman Sunday.

Mr. O. R. Booth of Victoria, B. C. and his wife, Mrs. Booth of Indiana, made a flying visit to our district over the week end, just time to say hello and goodbye. His friends and neighbors were pleased to see him looking so well.

A host of friends gathered at the home of Mrs. J. Koch Saturday evening May 28th to wish Mrs. Koch very many happy returns of her birthday which was just forty years (young) and feast like sweet sixteen. Music was enjoyed, and a delightful lunch was served. Several birthday gifts were presented to Mrs. Koch, the happy evening drew to a close at a very late hour, everyone wishing their hostess more years of happiness, and able to enjoy the very best of health.

Men's Better Wear

We were strolling down the street this evening, enjoying the warm summer air, and from each open window came the sounds of music and laughter. It seemed that everybody had a radio and, in memory we returned to the home of our boyhood days, when evenings were whittled away with a brisk game of crokinole, or an exciting half hour with a stereophone and assorted views of the world from Palestine to Niagara Falls. What a change! And we take it all for granted.

ed and rarely stop to think how much the radio has brightened up the most humble of homes.

Among the remedies for relieving insect bites, household ammonia, tincture of iodine, borated vasoline, glycerin, and alcohol are widely used. In many cases, irritation passes away when ordinary toilet soap is moistened and gently rubbed over the puncture.

You can save the prodigal of home-ry children by teaching them arithmetic. —(Dr. John A. Season, Superintendent of Schools at Pasadena, California).

In a few years the Jews in Germany will build a monument to Hitler for the just way he has treated them. —(Cassius Mears).

It's hard to believe in these times, but the outstanding characteristic of our successful men is just plain goodness. —(Editorial note in the James town, N. Y. Evening Journal).

N. B.—Shakespeare once said "Ye gods, it doth amaze me."

Some Howlers—  
The benefit of longitude and latitude is that when a man is drowning he can call out what latitude and longitude he is in and we can find him.

The difference between a king and a president is that a king is the son of his father, but a president isn't.

The Marquis Card provided that no free man should be hanged twice for the same offense.

An octopus is a person who hopes for the best.

## THE WORLD OF WHEAT

By H. G. L. Strange  
Director, Research Department.

"Wars and rumours of Wars." This expression is as old as mankind and is found in all languages.

Why do nations fight so much? The Research Department of the Scarle Grain Company is now conducting a study which seems to show that certain inherent human characteristics or defects, are perhaps mainly responsible.

1. THE STRUGGLE FOR EXISTENCE AND THE URGES TO IMPROVE LIVING CONDITIONS—  
Which makes countries take possession of other lands that grow more foodstuffs or produce more raw materials.

2. SELFISHNESS—  
Which makes countries that have an abundance of good things struggle to share them freely with other nations.

3. ENVY—  
Which makes deficient nations determined to fight those countries that have taken possession of lands which produce an abundance. Is there any remedy for all these struggles? I for one think that perhaps there is. Let the countries which now possess most of the good things

of this world make it easier, by lowering their tariffs, for the "have not" countries to obtain their reasonable needs of foods and raw materials, all in exchange for their own goods.

This simple remedy I believe would lessen the necessity for war on the part of the "have not" countries, and besides which, would also be a decent fair and kindly thing to do.

## LANGDON

Mrs. S. Scott was called to Kalm, N. Dakota by the serious illness of her mother.

Mrs. J. McIntyre has been very ill for two weeks. She is at home under the care of a nurse.

Mr. and Mrs. D. Kernaghan left on Friday for Ballard, Sask. to visit their daughter and son-in-law.

The annual concert of the Langdon and Bow River School Fair Association was held Friday evening in the J. O. O. F. Hall which was packed to capacity.

Mrs. H. E. Gordon who spent the winter with her son Everett at Penton, N. C. came home on May 17th.

Mr. E. Armstrong is leaving on June 6th for a visit to Ireland, England and Scotland. He has been here for 37 years. A very pleasant trip to you, Ed.

Mr. Wm. Barron is recovering from a very badly wrenched arm. He was leading a horse and the animal pulled away throwing his shoulder out of place.

## CROWFOOT

Mr. Hugh Berry, Mrs. Morgan and Billy Morgan, Dave Penner, Hillevi and Greta Nilsson motored to Banff Sunday.

Mrs. Nilsson has been another victim of the prevalent cold this week.

Elva Schumann spent the week end in Strathmore, at the Bow's home.

The C. H. S. Club held their weekly meeting at the Berry residence on Friday and it was decided to hold a Pie Social and Amateur Hour on June 3rd. Ladies: bring a pie to the Crowfoot school June 3rd.

Marjorie Garriott is making a wonderful recovery after her recent operation.

Mr. and Mrs. Werling and Mr. and Mrs. J. Harwood were Sunday visitors at the home of F. J. Schumann.

Seeding is now completed in this district.

## NAMAKA

A musical and dramatic recital was held in the school house on Wednesday of last week. The school was filled to capacity and the program was enjoyed by all. The pupils proved themselves masters of the difficult parts they performed.

The tennis tournament held on Sunday was quite a success. There were 16 players and some keen competitions. Miss A. Garrett and E. W. Fluker won the finals. The court is in fine shape and the Sports Club hope to enjoy many more similar events.

The date of the Ladies Aid meeting for this month has been altered and will be held on the following Thursday, June 16th.

The wind storm Friday did considerable damage to crops in the district.

Mr. and Mrs. H. E. Johnson accompanied by Mavis and Marjorie Mackie spent the week end with Mr. and Mrs. Jack McLean of New Dayton.

Mrs. Casselman, former teacher of Namaka, her son Runylope called on friends in town Sunday.

## A FEW CANDID WORDS ABOUT BANK EARNINGS

Half of one per cent. a year on total assets is not much of a profit margin for any business, corporate or individual.

Yet that is all the "velvet" there is in the business of Canada's chartered banks.

Banks pay interest on personal savings deposits. They charge interest on loans.

The difference is not all "velvet" by any means—for these reasons:

- It costs money to operate a bank.
- The cash reserves held by the bank earn nothing.
- A bank must provide for losses.
- Earnings on a great deal of a bank's assets are very low.

More than 25,000 people are employed in Canada's banks. In the last ten years Canada's chartered banks have paid in wages and salaries some \$276,000,000—purchasing power distributed over the Dominion.

In the same ten years banks paid in taxes to municipalities \$40,831,930; to provinces \$14,429,320; and to the Dominion, \$21,027,324, a total of \$76,288,574.

Banks have other costs, too. Rent on premises; stationery and printing; light, water and fuel; contributions to pensions and group insurance for employees. Depreciation on buildings takes a large amount each year.

Any money a bank pays—taxes, wages or other costs—can come only from the bank's resources—and must be paid in cash. No magic can produce it.

Banking is not all sunshine. It has its cloudy aspects too. Banks must stand ready to pay their creditors—their depositors and note-holders—a hundred cents on the dollar; but banks unfortunately cannot always collect a hundred cents on the dollar! They have losses, inevitably, and must set aside substantial sums to meet them.

A bank must keep itself in such a cash position as to be able to pay you your deposit whenever you see fit to withdraw it.

Chartered banks are required by law to lodge with the Bank of Canada, or hold in Bank of Canada notes, five per cent. of their depositors' funds; but, in practice, they always carry about twice that percentage.

Deposits with and notes of the Bank of Canada earn no interest for the chartered banks.

It is necessary also to keep a further amount in short term investments readily convertible into cash. The yield on these investments is low, firstly, because Treasury Bills and other short term securities mature at short date; secondly, because banks having no monopoly of money or credit—cash reserves of many industrial concerns compete for this type of investment.

Bank earnings depend very largely upon loans, but a bank can lend only when the customer wants to borrow.

Ordinary bank loans in 1929 averaged \$1,342,000,000; in 1937 only \$731,000,000.

**THE CHARTERED BANKS OF CANADA**

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.

### DEMOCRACY FREES IDEAS; DICTATORSHIP BIND THEM

As democracy has opened the door on education, the dictators have tended to slam them shut so to darken whole areas of knowledge.

Outweighing all criticism of democracy is the tremendous fact that America, Great Britain, France, and other free governments have maintained the great lines of spiritual, moral, and intellectual progress, outweighing all claims of the dictatorships is the equally momentous fact that they have sought to cut these lines and splice them to backward and discarded principles.

The dictatorships, however, have erected ideological and military dams across the 5,000-year-old streams of recorded spiritual and moral progress. Books of those who dared to think have been given to the bonfire. A religion of what a few men judge the state to be has widely supplanted the churches.—Christian Science Monitor

### RECENT ALBERTA ACTS MEET DISAPPROVAL

The Chamber of Commerce, Edmonton and other groups have urged the Ottawa government to disallow Home Owners Security Act, amendments to Debt Adjustment, to Limitations of Actions, the Tax Recovery, and the Securities Tax. The Limitation of Actions Act bars court action after July 1940, for collection of debts incurred prior to July 1936, unless a new agreement is made before July 1940.

The Home Securities Act prohibits any proceedings against a farm home where the mortgage is dated prior to March 1st, 1938 and against urban homes regardless of the value of the property unless the mortgagee deposits \$2,000 to be paid to the owner of the property if a foreclosing action succeeds.

The Securities Tax Act imposes a tax of 2 per cent on the principal amount of all mortgages.

The Limitations of Actions Act reduces the time in which actions may be taken in respect to debts incurred prior to July 1st, 1936 to July 1st, 1940, unless a new agreement is written with the borrower or action commenced before that date. Action can only be begun under permit from the Debt Adjustment Board. Where the debtor refuses to make a new agreement the debtor must meet the views of the Debt Adjustment Board or be refused permission to take any action.

### BRIEFS

The Railway question of Canada is creating a very vexed and difficult problem for the Senate. Pres. E. W. Beatty has presented his case for unification in forcible terms. Now in turn Mr. Patterson speaking for the C. N. R. has suggestions that will make the picture another angle.

A writer says brilliant statement out from the Railway Problem like quills from a porcupine. It is a thorny question to settle.

IN VANCOUVER  
Grosvenor  
they are the

The charm of sea and mountains is a fitting background to this "Hotel of the friendly Heart"

Good rooms, well-furnished, excellent dining room, but no bar. Close in to all major activities, yet on a quiet street. A friendly welcome awaits you. Rooms \$1.50 up. Make your reservations by mail.

"Vacationer's Hotel of Distinction"

Hotel Grosvenor  
VANCOUVER B.C.

Over many years undivided profits, now amounting to \$34 per share, have been left in the business by shareholders and added to reserve, for the greater security of depositors and note-holders.

The average shareholder's investment in Canada's chartered banks now, therefore, amounts to \$100 per share. A dividend of say 5 per cent. on the \$100 per value is, in fact, only slightly over four per cent. on the money actually invested, or left with the bank by the shareholder.

### DOCTORS NEEDED IN MANY DROUGHT AREA TOWNS

Twenty villages in the drought area of Alberta still formerly had local practicing doctors now have none, and many municipalities have been without a doctor's services for the last five years. In many cases the only medical services during that period have been rendered by trained nurses resident in the district.

These were statements contained in a recent survey of the drought territory completed by the Alberta College of Physicians and Surgeons through its secretary, W. G. Hunt.

The college will recommend that the provincial government establish some plan to provide medical services in the drought area.

When heavy grasshopper infestations threaten sections of the country, as is the case to some extent this year, it is as well to recall that a fibrous plant such as flax is not generally appealing to hoppers and in many cases a flax crop can be harvested when most other grain crops have been completely destroyed.

Inasmuch as it is possible to sow flax, with satisfactory results, much later than wheat it may prove very advantageous to farmers who still have some part of their acreage where they can prepare a good clean seed bed as that is essential to the successful cultivation of flax.

CHRISTIAN SCIENCE  
At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be "And the Only Cause and Creator." One of the Scriptural quotations in the Lesson-Sermon is Isaiah 48:12, "Hearken unto me, O Jacob and Israel, my called; I am he: I am the first, I also am the last." One of the correlative passages

from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is—"There is but one primal cause. Therefore there can be no other cause from any other cause, and there can be no reality in aught which does not proceed from this great and only cause." (p. 207).

from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is—"There is but one primal cause. Therefore there can be no other cause from any other cause, and there can be no reality in aught which does not proceed from this great and only cause." (p. 207).

## THE PASSION FOR CRAFTSMANSHIP THAT CHARACTERISED THE FOUNDERS

Craftsmanship—the skill and dexterity in the making and shaping of things, plus a quality of finished product in which its maker delights—was the characteristic of the outstanding products of workman and manufacturer in the centuries previous to that of ours. It was such pride of product that prompted its maker to place his mark upon it—the origin of trade marks. Even individual parts or assemblies, such as a binder knitter, bore the mark of the man who assembled it and his pride was in the fact that few, if any, of the units bearing his mark were found wanting.

The passion, and passion it may well be termed, that surged through the hearts and minds of the founders and men responsible for the business in the earlier days, for turning out machines of such a quality as brought world-wide acceptance of them and demand for them, still rules the policies of Massey-Harris today.

Never before was such skill employed in the designing and developing of machines for the farm. The factories today are equipped with the latest and most up-to-date machinery for the production of farm implements, and these factories are manned by men of training and experience, a great many with a life experience in the making of Massey-Harris implements.

## THE SPORTS LEDGER

To the Sports Editor—

I would like to submit two articles  
of interest to local sportmen.

Did you know that in 1882 George  
Hawik is alleged to have invented  
indoor baseball at the old Farragut  
Boat Club in Chicago, using a broom-  
stick for a bat and a boxing glove for  
a ball.

—Also Mat Ruppert made \$50,000  
last year picking for various teams.  
This is more than any other baseball  
player's salary. Thanking you,  
Yours truly, The Softballer.

The above items prove indeed in-  
teresting and we hope that any of our  
sportmen readers will send in any  
little item that might stir the obser-  
vation of this scribe.

It seems that Joe De Maggio has  
more than an autograph problem to  
deal with. Shortly after he returned to  
the Yankee lineup a so-called lun-  
ger snatched his hat from his head  
and dashed out of the park.

Golfers—The following terms taken  
from a caddy's vocabulary ade-  
quately describe the average golfer.  
In which class do you fit?

Grass Nibbler—One who gets more  
grass than ball.

Stump Striper—One who has no  
energy on tender shrubs.

Broccoli Browner—One who fre-  
quents green pastures.

Web sterian Sluggo—One who's  
vocabulary runs away with itself  
when the ball doesn't run the right  
way.

Fred Perry lost 10-8 and 6-4 to El-  
worth Vines in the only Prairie Ten-  
nis Exhibition Match featured at  
Winnipeg May 27th.

Monkeys are refreshed by large  
cages of the tropics.
